

# COMMUNITY HEALTH NEEDS ASSESSMENT

Beth Israel Lahey Clinic and its member hospitals are conducting a Community Health Needs Assessment to better understand the most pressing health-related issues impacting the people living and working in the communities we serve. This anonymous, 15-minute survey will allow us to develop a deeper understanding of issues that relate to our community member's thought on quality of life, availability of services, and physical/mental health to improve patient and community services.

Take the survey by November 15th:
